

Dermatologists Share Their All-Time Favorite Eye Creams

As we age, our skin naturally produces less collagen and elastin, resulting in fine lines, wrinkles, sun freckles, and an overall change in texture. And since the skin around our eyes is the thinnest on our body, it's especially important to take preventative measures like using eye cream.

So who better to ask for recs than dermatologists themselves? Here are four dermatologist-approved eye creams worth adding to your skin care regimen.
